

Manufacturer Declaration
on the basis of the PPE-Regulation (EU) 2016/425
Appendix II, Paragraph 2.5

2.5. PPE which may be caught up during use where the foreseeable conditions of use include, in particular, the risk of the PPE being caught up by a moving object thereby creating a danger for the user, the PPE must be designed and manufactured in such a way that a constituent part will break or tear, thereby eliminating the danger.

Kind of Ear Plug:

Reusable Ear Plug Individually Moulded Ear Plug

with a device for the attachment of a cord

Manufacturer / Type name:

- The cord is included in the scope of delivery of the unit
- The cord is not included in the scope of delivery of the unit
- The cord is optionally available
- The cord is to be obtained otherwise

This is to confirm that the requirements according to § 2.5 in Annex II of the regulation are fulfilled. It is ensured that in case of emergency the risk of a personal injury of the user is eliminated as the cord or the fixing of the cord will loosen itself or break.

We as manufacturer / supplier confirm the above information.
